

# PURE GUARD

## Instructions For Use

PURE GUARD is developed to protect fibres and colours of carpets as well as home furnishings. The invisible protection allows the fibres to 'breathe' and simultaneously proofs against moisture, water and stains.

PURE GUARD is particularly suitable for families with children where the best maintenance of carpets, furniture, home furnishings, etc. is ensured. Some home furnishings and carpets can shrink slightly. Therefore always carry out a little test first.

Directions for use: Spray onto a completely clean and dry surface.

The best result is achieved when an even layer is sprayed onto the surface at a distance of approx 30 cm so the surface is slightly damp. 1 bottle is sufficient for approx 6-7m<sup>2</sup>.

**IMPORTANT!** Shake the bottle before use. The product should not be inhaled. When impregnating, ensure good ventilation. Only use the treated surface after it has dried completely.

When accidents occur, absorb excess moisture with a paper towel and possibly dab the stain a little with a damp cloth. Finish by dabbing with a paper towel.

The product must be stored out of the reach of children.

### 4 important advices

1. **Avoid inhaling fumes.**
2. **Shake the bottle before use.**
3. **Hold the bottle at an arm's distance when spraying.**
4. **Remember to ventilate when impregnating.**
